of the European Union

Announcement (<http://www.fesss.org>)

Dear Colleagues,

On behalf of the Federation of Eurasian Soil Science Societies (FESSS) and Erasmus Mundus Joint Master Degree in Soil Science Programme (emiSS), we are delighted to invite you to the International Symposium on “Soil Science and Plant Nutrition” (EURASIAN SOIL Symposium 2021). The meeting will be held **online** on the 18 - 19 December 2021. The symposium titled “Soil Science and Plant Nutrition” sets up the ambitious goal of integrating scientific background, applied research and novel approaches to link soil, plant and environmental aspects over various ecosystems. Physical, chemical and biological soil properties, plant nutrition and fertility mechanisms and processes studied at different scales - from molecular to field - will feed the diversity of experiences, opinions and scientific knowledge. The symposium will provide a great opportunity to learn and discuss recent advances in the soil science in general and to establish contacts and collaborations with participants from many different parts of the world. The symposium will focus on multidisciplinary approach to soil science, with special interest on basic research, latest and technological developments for soil science and plant nutrition. The scientific sessions will also emphasize basic concepts of soil. The symposium will also provide multiple opportunities for interaction among scientists from public and private institutions.

Sincerely yours,

Prof.Dr. Rıdvan Kızılkaya, Chair of Organizing Committee

Subject and Topics

Papers will cover fundamental aspects, technical approaches and/or the related areas as follows:

- Soil Physics & Mechanics
- Soil Chemistry
- Soil Biology & Biochemistry
- Soil Erosion & Conservation
- Soil Degradation & Reclamation
- Soil Genesis & Classification
- Soil Survey & Mapping
- Soil Mineralogy & Micromorphology
- Soil Management
- Soil Health & Quality
- Soil Hydrology
- Soil Pollution
- Soil Fertility
- Plant Nutrition
- Fertilizer & Fertilization
- Remote Sensing & GIS in Soil Science
- Geostatistics
- Applied Mathematic in Soil Science

Venue

Due to the ongoing effects of COVID-19, the persistent uncertainty on travel restrictions, and physical distancing requirements, the symposium will be transformed into a virtual congress. The symposium will be held using the Zoom Meetings web conference application. Details on how to access the online platforms are available in this page and will be available before the symposium to register participants through their personal reserved area. All the attendees and the presenters will receive an e-mail from the Symposium Secretariat regarding the participation, the instructions and the links to connect to the daily sessions. The meeting could be joined through the desktop application, using mobile app or through web app, without installing any software or plug-ins on your computer. Please be aware that the web app is best for participants who don't need to present. To present and share your screen is better to install desktop app.

Registration

The official call for registration is now available using our online form on the Symposium web site (www.fesss.org). Abstract or full text should be submitted by December 1, 2021 using our online submission system. Acceptance of abstracts will be notified to the Leading Authors no later than December 10, 2021, following evaluation by the Scientific Committee. The total number of presentations are limited to 80 oral presentations. The number of participants from the Federation (FESSS) countries are limited to 50% of all participants.

Author Instructions for Full text Submission

Template of Abstract and Full text will be available in the Symposium web page. Each full text paper must be prepared according to template word (docx) file given in the web page and limited to 6 pages.
